

Advanced Academic Class Test

WHAT IS THE ADVANCED ACADEMIC CLASS?

The Advanced Academic Class aims to challenge and extend our most academically capable students, preparing them with the skills required for life long learning.

Students access the stage 4 curriculum in an accelerated environment where more time is spent undertaking higher order thinking activities that challenge them to apply their knowledge across contexts and to form in depth opinions. In 2016 we are also piloting a cross curricula STEM program which engages students in project based learning activities using Science, Technology, Engineering and Mathematics.

HOW TO APPLY

All students are welcome to apply for our Advanced Academic Class. Selection of successful candidates is done through an external test which will take place at Picton High School.
